SUMMARY

Software developer with 6+ years of experience building and maintaining enterprise systems with Java, Oracle PL/SQL and Angular. Currently develops and supports corporate Oracle applications at Hapvida Notre Dame. Previously delivered REST services and database solutions for Unimed Fortaleza, part of Brazil's largest healthcare cooperative system, in applications serving 1,000+ users. Strong database background, including query performance tuning and two postgraduate specializations in data. Currently deepening modern Java skills and AI-assisted development with Claude Code.

SKILLS

Languages: Java, PL/SQL, SQL, TypeScript

Frameworks & APIs: Angular, REST APIs

Databases: Oracle, PostgreSQL

Tools: Git, GitLab, Jira, Oracle Forms, Oracle Reports, Claude Code

Familiar with: Python, Ruby

EXPERIENCE

PL/SQL Developer | Hapvida Notre Dame — Aug 2025 – Present

- Build new features and bug fixes with PL/SQL, Oracle Forms and Oracle Reports.
- Work with the Support team to analyze and resolve incidents in corporate applications.
- Optimize SQL queries and improve the performance of corporate applications.

PL/SQL Support Senior | Hapvida Notre Dame — Jan 2025 – Jul 2026

- Resolved highly complex incidents and service requests for the Authorization/Support team.
- Fixed bugs and optimized SQL queries and Oracle Forms screens.
- Managed and tracked the team backlog, reducing ticket volume.

Web Developer | Grupo Portfólio (client: Unimed Fortaleza) — Apr 2022 – Sep 2024

- Developed and maintained Java REST services for healthcare applications used by 1,000+ users.
- Built and maintained Angular front-end features integrated with backend services.
- Maintained and improved Oracle PL/SQL packages and procedures for core business processes.
- Managed source code with GitLab and tracked development tasks in Jira.

PL/SQL Developer | Wipro Technologies — Jul 2020 – Mar 2022

- Gathered requirements with stakeholders and translated them into technical solutions.
- Built application screens with Oracle Forms and business reports with Oracle Reports.
- Improved SQL query performance and performed data analysis to support business teams.
- Provided support and maintenance for the company's internal legacy system.
